
Brickwork Release Notes

New Brickwork Release – May 2019

Brickwork release 5.23

Included in this release are the following new features & various 'bug' fixes:

- Corrected issue in which the 'Maximum Donations' field value in Recurring Donations settings was not always being respected
- Corrected issue in which an extra child opportunity record (Recurring Donations and Opportunities model) may be created after the recurring end date
- Corrected issue in which the credit card reader may not work from the Opportunity virtual terminal
- Updated Brickwork to schedule future opportunity records (Recurring Donations and Opportunities model) via the same logic as the NPSP for weekly donations as an extra record may have been created.

Action Items

No action is required

Version 5.23 installation links if you would like to complete the upgrade sooner:
